I am an experienced front-end developer with 1+ years of professional experience who is dedicated to building interesting and intuitive user experiences using HTML, CSS, and Javascript. With a sharp eye for design and a passion for web development, I strive to build high-quality, visually appealing websites that exceed customer expectations. I am motivated to staying current with industry trends and best practices due to my excellent technical competence and ongoing drive for learning. I am confident in my abilities to contribute to dynamic development projects and effectively communicate with multi-functional teams. I am ready to harness my expertise to generate significant solutions and help businesses grow in the digital sphere, with an emphasis on providing clean, efficient, and responsive code.

Skills

Languages: JavaScript.

Front-end Skills: React.js.

Tooling: Git, Github, Netlify.
